DERIVAN BLOCK ink

Derivan Block Ink has the perfect consistency for lino or wood block printing and transfers and will allow sharp, accurate prints onto paper. It is non-toxic, lightfast, and easy to clean up while still giving the feel of a professional grade oil-based printing ink.

Use

Derivan Block Ink has been formulated for lino and wood block printing on paper. Derivan Block Ink will remain open on the block for some time but once printed will dry quickly. If a longer open time is required, mix Derivan Drying Retarder to slow the drying time.

Classroom Use: Derivan Block Ink will remain open on the block for some time but once printed will dry quickly to facilitate stacking of prints after each class. Does not contain oil or solvents, wash all utensils and blocks in soapy water.

Colour mixing

All the colours may be intermixed to form bright secondary and tertiary colours. It is advisable to mix the colours with a spatula on a sheet of glass or other non-porous surface.

Clean-up

Wash all utensils, brushes and hands with soap and water to clean up.

Health & Safety

Derivan Block Inks are a non-toxic water-based acrylic ink containing water, pigment and acrylic. Although it is certainly not made to be ingested, it is safe for use with children. For further safety information please download the Material Safety Data Sheet from our website at www.derivan.com.au.

Removing stains

Suitable clothing should be worn as some staining may occur. We advise to wash stains out immediately with cold water and household soap, taking care not to spread the stain. Dry stains will need to be soaked overnight in lukewarm soapy water. Do not use hot water, chemical solvents or thinners. For more detailed instructions please visit the Derivan website on www.derivan.com.au.

Intro Colours Set (1PBI5S)

INTRO COLOURS SET Derivan Block inks are perfect for printmakers using any lino, wood or soft block surface. In addition to creating bold and simple designs. - The set comes with five intermixable colours that can be mixed to create new vibrant hues.

Block Ink Lino Kit (1PBIK)

The "BLOCK INK LINO KIT" is an excellent starter kit for anyone who wants to try their hand at block printing. It includes everything you need to make your first blocks: Derivan Ink, a lino cutter and five different blades, a roller for rolling out your ink, a palette knife, and one piece of lino. It is an inexpensive way to get started in the exciting world of block printing!

Lino Rollers

The durable construction of Derivan lino rollers make them ideal for woodblock and Lino printing. The fully concentric rolling surface enables smooth ink application, while a handle flips around to turn this into a convenient roller stand. Available in 2", 4" & 6" widths - perfect for your next printing project.

Derivan Soft Carve

Derivan Soft Carve takes all the hard work out of carving relief prints. This Smooth, flexible and durable rubber block is perfect for carving into with your Lino tools. This alternative carving substrate is ideal for beginners and hobbyists. Cut with ease, detailed and intricate work.

Available in three sizes: 10 x 10 cm, 14 x 21cm and 21 x 30cm.

Lino Cutter Set

The lino blade handle has a secure chuck system for simple installation and replacement of blades. The lino cutters have a blue handle made from rigid, durable plastic. The lino cutters are sharpened on the outside for optimal cutting precision. Use for soft carve and grey lino.
